

AJAY KUMAR SILIVERI

Cloud DevOps Engineer (AWS)

✉ silveriajaykumar@gmail.com | ☎ +91 7207201011

PROFESSIONAL SUMMARY

Cloud DevOps Engineer with **4.8 years of IT experience**, including **hands-on experience with cloud and DevOps practices**. Experienced in designing and implementing **CI/CD pipelines**, automating **AWS infrastructure**, and supporting **scalable, secure, and highly available cloud environments**. Strong proficiency in **Python scripting**, containerization, and infrastructure automation. Proven experience working in **Agile, cross-functional teams**.

TECHNICAL SKILLS:

Cloud (AWS): EC2, ECS, Fargate, S3, RDS, Lambda, IAM, CloudWatch, Auto Scaling, ELB, ECR

Infrastructure as Code: CloudFormation, Terraform

CI/CD & DevOps: Jenkins, Maven, Ansible, AWS CodePipeline, CodeBuild, CodeDeploy, CodeCommit, Git, Azure DevOps

Containers: Docker & Kubernetes

Programming & Scripting: Python, Shell (Linux), JavaScript, SQL

Operating Systems: Linux, Windows

Methodologies: Agile / Scrum, DevOps

PROFESSIONAL EXPERIENCE

IT Analyst C2 – Cloud DevOps Engineer

TCS | April 2026 – April 2026

Cloud DevOps Engineer

Capgemini | Jan 2023 – Mar 2026

- Designed and implemented **end-to-end CI/CD pipelines** for applications and infrastructure
- Automated **AWS infrastructure provisioning** using CloudFormation and Terraform
- Deployed and supported **containerized applications** using Docker, ECS, and Fargate
- Developed **Python scripts** for deployment validation, environment checks, and smoke testing
- Integrated automated testing into CI/CD pipelines

- Monitored and troubleshoot **AWS production environments** using CloudWatch
 - Implemented **IAM roles and policies** following security best practices
 - Collaborated with development, QA, and DevOps teams in an **Agile environment**
-

Software Engineer – DevOps & Automation

Capgemini | July 2021 – Dec 2022

- Supported **cloud-based application deployments** and CI/CD workflows
 - Built and maintained pipelines using Jenkins, Git, and Azure DevOps
 - Automated deployment verification and pipeline checks using Python
 - Worked on Linux and Windows servers for application and pipeline troubleshooting
 - Validated microservice and API deployments in cloud environments
 - Actively participated in Agile ceremonies and sprint planning
-

PROJECTS

Project 1: Cloud-Native Application Deployment & Automation

Role: Cloud DevOps Engineer

- Designed and supported **highly available AWS infrastructure** using EC2, Auto Scaling, and ELB
 - Automated infrastructure creation using **CloudFormation and Terraform**
 - Built CI/CD pipelines using **Jenkins and AWS CodePipeline** for application deployments
 - Containerized applications using **Docker** and deployed via **ECS and Fargate**
 - Integrated automated smoke and integration tests into CI/CD pipelines
 - Implemented monitoring and logging using **CloudWatch**
 - Performed troubleshooting and root cause analysis in production environments
-

Project 2: CI/CD Pipeline Implementation & Test Automation

Role: DevOps Engineer

- Designed and implemented **end-to-end CI/CD pipelines** for multiple environments
- Integrated **CodeBuild, CodeDeploy, and Git** for automated build and deployment

- Automated deployment verification using **Python scripts**
 - Integrated automated smoke, regression, and integration tests into pipelines
 - Reduced deployment failures by early validation and monitoring
-

Project 3: AWS Infrastructure Monitoring & Optimization

Role: Cloud Engineer

- Configured **CloudWatch metrics, logs, and alarms** for infrastructure and applications
 - Monitored system performance, availability, and reliability
 - Supported **cost-optimized and scalable AWS architectures**
 - Assisted in troubleshooting infrastructure and application-level issues
-

EDUCATION

Bachelor of Technology (Engineering)

Aurora Scientific Technology and Research Academy, Hyderabad | 2019

(Ajay Kumar Siliveri)
